

Viral Hepatitis Education and Training Resources

The **CDC National Viral Hepatitis Resource Center** is a valuable resource to assist you with your viral hepatitis training needs. The resource center can be found on the CDC viral hepatitis website at: www.cdc.gov/hepatitis

The following is a sample of the training materials available. Please visit the site to find a comprehensive list of educational materials and training resources.

Training Curricula and Resources

These resources offer training or materials developed to facilitate integration of viral hepatitis into existing public health settings.

- **“It’s Time!” Integrate Viral Hepatitis Into Your Work** Developed by NY State Department of Health and Health Resources, Inc. This curriculum and train the trainer course is designed for providers serving at risk populations. The modular nature of these materials allow for tailored trainings designed with the particular needs of HIV/STD prevention, substance abuse treatment, or correctional health services providers. For more information, contact:

Richard Cotroneo at: rac09@health.state.ny.us or call 518-474-3045

- **Viral Hepatitis and HIV/AIDS Integration: A Resource Guide for HIV/AIDS Programs** Developed by the National Association of State and Territorial AIDS Directors (NASTAD). This guide is designed for HIV program staff. For more information, see:

www.cdc.gov/ncidod/diseases/hepatitis/resource/training/nastad.pdf or contact: Chris Taylor at ctaylor@nastad.org or call 202-434-8092

- **HITM - Hepatitis Integration Training Manual** Developed by the American Liver Foundation. This comprehensive guide provides hepatitis C education to health professionals in the areas of HIV/AIDS, sexually transmitted disease, harm reduction and drug treatment professionals. For more information, see:

www.cdc.gov/ncidod/diseases/hepatitis/resource/training/hitm.htm

Counselor Training

These materials are designed for STD, HIV, and other counselors working with at-risk adults.

- Integrating Viral Hepatitis with HIV Prevention Counseling:
Developed by the National Coalition of STD Directors (NCSD). For more information, see www.ncsddc.org or contact Dana Cropper Williams at dcropper@ncsddc.org or call 202-842-4660
- Hepatitis C Prevention Counseling Training Developed by the Texas Department of Health. See <http://www.dshs.state.tx.us/hivstd/training/hepc>
- Hepatitis C: A Training Guide for Counselors and Outreach Workers
Developed by Danya Institute and Danya International, Inc. for substance abuse treatment counselors. See: www.danyalearningcenter.org/hepC/index.asp

Special Populations

- Hepatitis Education Curriculum for Correctional Settings:
Developed by the National Commission on Correctional Health Care. See: www.cdc.gov/ncidod/diseases/hepatitis/resource/training/ncchc_man.htm
- Viral Hepatitis: What Every Teenager Needs to Know
A three-part illustrated slide set designed to teach high school students about hepatitis A, B, and C. See: www.cdc.gov/ncidod/diseases/hepatitis/resource/training/hs_slideset.htm
